Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

THE JOURNAL OF PHILOSOPHY, PSYCHOLOGY AND SCIENTIFIC METHODS

All communications to the Editor should be addressed to PROFESSOR FREDERICK J. E. WOODBRIDGE, Columbia University, New York City.

Subscriptions and advertisements should be sent to the SCIENCE PRESS, Lancaster, Pa., or Sub-Station 84, New York City. The annual subscription price (twenty-six numbers) is $3.00 and the charge for single numbers is 15 cents. Advertising rates will be forwarded on application.

Entered as second-class matter, January 19, 1904, at the Post Office at Lancaster, Pa., under Act of Congress of March 3, 1879.

THE EDUCATIONAL REVIEW

IS THE

BEST ENCYCLOPEDIA OF EDUCATION

THE Analytical Index to the first twenty-five volumes of the EDUCATIONAL REVIEW, covering the period from January, 1891, to May, 1903, inclusive, is now ready for distribution. Copies will be sent on receipt of $2.00, plus 12 cents for postage. After July 1, 1904, the price will be advanced to $3.00, plus 12 cents for postage.

This Analytical Index is one of the most important and useful guides to current educational literature yet made available. It has been compiled by Charles Alexander Nelson, Head Reference Librarian of the Library of Columbia University, and is a volume of 218 pages, similar in form and size to the page of the EDUCATIONAL REVIEW. The Analytical Index contains references and cross-references not only to the leading articles and discussions which have appeared in the EDUCATIONAL REVIEW during the past twelve and a half years, but also to the signed book reviews which have been so striking a feature of the EDUCATIONAL REVIEW since its foundation.

Only a limited edition of the Analytical Index has been printed, and subscriptions for it will be filled in the order in which they are received.

"This index will increase the reference value of any set or partial set of the EDUCATIONAL REVIEW manifold, and will be valuable to all students of, or writers on, educational topics, as a significant contribution to the bibliography of the whole range of educational subjects; a reference tool which should always be at hand." J. I. Wyer, Jr., Librarian of the University of Nebraska.—May 13, 1904.

EDUCATIONAL PSYCHOLOGY

By Professor EDWARD L. THORNDIKE

In this book Professor Thorndike applies to a number of social, and especially educational problems, the methods of exact science. The topics are treated in the light of the most recent researches and with the aid of modern statistical technique. The book thus provides those interested in education as a profession or as a feature of American life with a sample of scientific method in this special field as well as with important information which has hitherto been inaccessible. The attitude of the author, who is the head of the department of educational psychology in Teachers College, Columbia University, and the author of numerous original contributions to dynamic psychology, is that of a candid and painstaking student of the work that has been done in this field and upholds rigorous ideals of scientific accuracy and logic. The book is so written and illustrated as to be readable and teachable.
